

Directional Coupler – WR340/N(f)

FM-DCR26-60

General Information

FM-DCR26-60 Directional Coupler allow monitoring forward and reflected power in a waveguide transmission system.

Both versions (20 dB and 60 dB Coupling) are equipped with standard N(f) connectors at the sidearm. Allowing the connection of standard power meters or spectrum analyzers.

RF Characteristics

Mainarm

Connector	EC153: R26 / EIA: WR340
Length	200 mm
VSWR	1:1.1
Loss	<0.1 dB

Sidearm

Connector	N(f) – 50 Ohm
Frequency Band	2400-2500 MHz
Coupling	20 dB/60 dB +/- 2 dB
Tolerance of the frequency band deviation (2400-2500 MHz)	<0.5 dB
Directivity	>20 dB
VSWR	1:1.2
